VOLUME 36, NUMBER 1, JANUARY 1997

The Tyge Christensen Prize in Phycology 1

In Memoriam 2–5

C. J. S. Bolch, S. I. Blackburn, G. J. Jones, P. T. Orr, and P. M. Grewe. Plasmid content and distribution in the toxic cyanobacterial genus *Microcystis* Kützing *ex* Lemmermann (Cyanobacteria: Chroococcales) 6–11

Craig W. Schneider and Richard B. Searles. Notes on the marine algae of the Bermudas 1. New records of Antithamnieae and Dohrnielleae (Ceramiaceae, Rhodophyta), including *Antithamnionella bermudica* sp. nov. 12–23

Senjie Lin and Edward J. Carpenter. Pyrenoid localization of Rubisco in relation to the cell cycle and growth phase of *Dunaliella tertiolecta* (Chlorophyceae) 24–31

Antonio Flores-Moya. Changes in reproductive effort, lamina-area index, and standing crop with depth in the deep-water alga *Phyllariopsis purpurascens* (Laminariales, Phaeophyta) . . . 32–37

J. L. McLachlan, G. T. Boalch, and R. Jahn. Reinstatement of the genus *Exuviaella* (Dinophyceae, Prorocentrophycidae) and an assessment of *Prorocentrum lima* 38–46

A. J. Calado and Ø. Moestrup. Feeding in *Peridiniopsis berolinensis* (Dinophyceae): new observations on tube feeding by an omnivorous, heterotrophic dinoflagellate 47–59

C. Katsaros and C. Salla. Ultrastructural changes during development, release, and germination of monospores of *Tilopteris mertensii* (Tilopteridales, Phaeophyta) 60–67

Kirsten M. Müller, Morgan L. Vis, Wayne B. Chiasson, Alan Whittick, and Robert G. Sheath. Phenology of a *Batrachospermum* population in a boreal pond and its implications for the systematics of section *Turfosa* (Batrachospermales, Rhodophyta) 68–75

S. Kono, K. Kuwano, M. Ninomiya, J. Onishi, and N. Saga. Cryopreservation of *Enteromorpha intestinalis* (Ulvales, Chlorophyta) in liquid nitrogen (Research Note) 76–78

Dieter G. Müller and Waldemar Eichenberger. Mendelian genetics in brown algae: inheritance of a lipid defect mutation and sex alleles in *Ectocarpus fasciculatus* (Ectocarpales, Phaeophyceae) (Research Note) 79–81

In Memoriam 82–90

Published 4 March 1997

VOLUME 36, NUMBER 2, MARCH 1997

Wim Vyverman, Koen Sabbe, and Ruth Vyverman. Five new freshwater species of *Biremis* (Bacillariophyta) from Tasmania 91–102

Hae-bok Lee, John A. Lewis, Gerald Kraft, and In Kyu Lee. *Sinkoraena* gen. nov. (Halymeniaceae, Rhodophyta) from Korea, Japan, and southern Australia 103–113

B. Santelices and M. Hommersand. *Pterocladiella*, a new genus in the Gelidiaceae (Gelidiales, Rhodophyta) 114–119

C. Perrone and E. Cecere. Regeneration and mechanisms of secondary attachment in *Solieria filiformis* (Gigartinales, Rhodophyta) 120–127

B. Brück and R. Schnetter. The life history and karyology of *Bryopsis plumosa* (Chlorophyta, Bryopsidales) from the Canary Islands 128–137

Gerald T. Kraft and Sarah M. Wilson. The taxonomy of *Dasyphila plumarioides* (Ceramiaceae, Rhodophyta) 138–149

U. Karsten, K. D. Barrow, J. A. West and R. J. King. Mannitol metabolism in the intertidal mangrove red alga *Caloglossa leprieurii*: salinity effects on enzymatic activity 150–156

T. Ichimura, F. Kasai, and P. F. M. Coesel. Geographical and ecological distribution of highly polyploid populations of the *Closterium ehrenbergii* species complex (Chlorophyta) . . . 157–163

Paul A. Broady, Shuji Ohtani, and Manfred Ingerfeld. A comparison of strains of *Xanthonema* (=*Heterothrix*, Tribonematales Xanthophyceae) from Antarctica, Europe, and New Zealand 164–171

A. D. R. N'Yeurt and D. W. Keats. *Rhipilia penicilloides* sp. nov. (Udoteaceae, Chlorophyta) from Fiji 172–178

Announcement 179–180

Published 17 April 1997

VOLUME 36, NUMBER 3, MAY 1997

Cinzia Forni, Francesca R. Telo', and Maria Grilli Caiola. Comparative analysis of the polysaccharides produced by different species of *Microcystis* (Chroococcales, Cyanophyta) . . 181–185

E. del Campo, Z. Ramazanov, G. Garcia-Reina, and D. G. Müller. Photosynthetic responses and growth performance of virus-infected and non-infected *Ectocarpus siliculosis* (Phaeophyceae) 186–189

Anissa Triki, Patrick Maillard, and Claude Gudin. Gametogenesis in *Haematococcus pluvialis* Flotow (Volvocales, Chlorophyta) 190–194

Bernabé Santelices and Enrique A. Martínez. Hierarchical analysis of reproductive potential in *Mazzaella laminarioides* (Gigartinaceae, Rhodophyta) 195–207

Anne Lise Middelboe, Kaj Sand-Jensen, and Klaus Brodersen. Patterns of macroalgal distribution in the Kattegat-Baltic region. 208–219

Orlando Necchi, Jr. and Marcelo R. Zucchi. *Audouinella macrospora* (Acrochaetiaceae, Rhodophyta) is the 'Chantransia' stage of *Batrachospermum* (Batrachospermaceae) 220–224

Estela M. Plastino and Eurico C. Oliveira. *Gracilaria caudata* J. Agardh (Gracilariales, Rhodophyta)—restoring an old name for a common western Atlantic alga 225–232

K. J. Saxby-Rouen, B. S. C. Leadbeater and C. S. Reynolds. The growth response of *Synura petersenii* (Synurophyceae) to photon flux density, temperature, and pH 233–243

Jahn Throndsen and Adriana Zingone. *Dolichomastix tenuilepis* sp. nov., a first insight into the microanatomy of the genus *Dolichomastix* (Mamiellales, Prasinophyceae, Chlorophyta) . . 244–254

Book Review 255–256

Published 3 July 1997

VOLUME 36, NUMBER 4, JULY 1997

Diana Sarno, Adriana Zingone, and Donato Marino. *Bacteriastrum parallelum* sp. nov., a new diatom from the Gulf of Naples, and new observations on *B. furcatum* (Chaetocerotaceae, Bacillariophyta) 257–266

N. Tabares, J. Afonso-Carrillo, M. Sansón, and J. Reyes. Vegetative and reproductive morphology of *Dudresnaya canariensis* sp. nov. (Dumontiaceae, Rhodophyta) 267–273

Michelle T. Casanova. Oospore variation in three species of *Chara* (Charales, Chlorophyta) 274–280

Yde S. D. M. de Jong. Studies on Dasyaceae. 1. Reproductive structures of *Eupogodon planus* and *E. spinellus* (Ceramiales, Rhodophyta) from Corsica (Mediterranean) 281–292

Giuseppe C. Zuccarello and John A. West. Hybridization studies in *Bostrychia*: 2. Correlation of crossing data and plastid DNA sequence data within *B. radicans* and *B. moritziana* (Ceramiales, Rhodophyta) 293–304

A. K. S. K. Prasad. Fine structure, taxonomy, and systematics of the centric diatom *Fryxelliella* gen. nov. (Eupodiscaceae; Bacillariophyta) having a new valve structure, the circumferential marginal tube, with descriptions of *F. floridana* sp. nov. and *F. inconspicua* (Rattray) comb. nov.. 305–323

Martine Villalard-Bohnsack and Marilyn M. Harlin. The appearance of *Grateloupia doryphora* (Halymeniaceae, Rhodophyta) on the northeast coast of North America (Research Note) 324–328

D. U. Hernández-Becerril and M. E. Meave del Castillo. Neocalyptrella, gen. nov., a new name to replace *Calyptrella* Hernández-Becerril et Meave (Research Note) 329

Book Reviews 330–335

Announcements 336

Published 23 July 1997

VOLUME 36, NUMBER 4, SUPPLEMENT, JULY 1997

Abstracts of papers to be presented at the Sixth International Phycological Congress, Leiden, The Netherlands, 9–16 August 1997 1–136

Published 23 July 1997

VOLUME 36, NUMBER 5, SEPTEMBER 1997

Kazuhiro Kogame and Yukimasa Yamagishi. The life history and phenology of *Colpomenia peregrina* (Scytosiphonales, Phaeophyceae) from Japan 337–344

Mario Giordano. Adaptation of *Dunaliella salina* (Volvocales, Chlorophyceae) to growth on NH_4^+ as the sole nitrogen source 345–350

D. W. Keats. *Lithophyllum insipidum* Adey, Townsend et Boykins and *L. flavescens* sp. nov.: two flat lithophylloid coralline algae (Corallinales, Rhodophyta) abundant in shallow reef environments in Fiji 351–365

X. Ariño, M. Hernandez-Marine, and C. Saiz-Jimenez. Colonization of Roman tombs by calcifying cyanobacteria 366–373

Jette Skov, Nina Lundholm, Roger Pocklington, Søren Rosendahl, and Øjvind Moestrup. Studies on the marine planktonic diatom *Pseudonitzschia*. 1. Isozyme variation among isolates of *P. pseudodelicatissima* during a bloom in Danish coastal waters 374–380

Nina Lundholm, Jette Skov, Roger Pocklington, and Øjvind Moestrup. Studies on the marine planktonic diatom *Pseudo-nitzschia*. 2. Autecology of *P. pseudodelicatissima* based on isolates from Danish coastal waters 381–388

Kazuhiro Kogame. Sexual reproduction and life history of *Petalonia fascia* (Scytosiphonales, Phaeophyceae) 389–394

G. Weykam, D. N. Thomas, and C. Wiencke. Growth and photosynthesis of the Antarctic red algae *Palmaria decipiens* (Palmariales) and *Iridaea cordata* (Gigartinales) during and following extended periods of darkness 395–405

Victoria López-Rodas and E. Costas. The genetic basis for lectin binding patterns in *Prorocentrum lima* (Dinophyceae) (Research Note) 406–409

A. Athanasiadis. On the typification and taxonomic status of *Melobesia notarisii* Dufour (Rhodophyta, Corallinales) (Research Note) 410–415

Book Review 416–417

Announcements 418

Published 23 October 1997

VOLUME 36, NUMBER 6, NOVEMBER 1997

Greta A. Fryxell, M. Célia Villac, and Lynda P. Shapiro. The occurrence of the toxic diatom genus *Pseudo-nitzschia* (Bacillariophyceae) on the West Coast of the U.S.A. 1920–1996: a review. (Phycological Reviews 17) 419–437

F. Rousseau, M.-C. LeClerc, and B. de Reviers. Molecular phylogeny of European Fucales (Phaeophyceae) based on partial large subunit rDNA sequence comparisons 438–446

D. W. Keats and G. Maneveldt. Two new melobesioid algae (Corallinales, Rhodophyta), *Synarthrophyton robbenense* sp. nov. and *S. munimentum* sp. nov., in South Africa and Namibia 447–467

N. F. Morcom, S. A. Ward, and W. J. Woelkerling. Competition of epiphytic nongeniculate corallines (Corallinales, Rhodophyta): overgrowth is not victory 468–471

C. J. S. Bolch. The use of sodium polytungstate for the separation and concentration of living dinoflagellate cysts from marine sediments 472–478

Sigalit Boura-Halfon, Moshe Rise, Shoshana (Malis) Arad, and Alex Sivan. Characterization of mutants of the red microalga *Porphyridium aerugineum* (Rhodophyceae) resistant to DCMU and atrazine 479–487

T. Horiguchi. *Heterocapsa arctica* sp. nov. (Peridiniales, Dinophyceae), a new marine dinoflagellate from the arctic 488–491

Curt M. Pueschel, Kevin Sullivan, and David L. Ballantine. Ultrastructure of *Verdigellas peltata* (Palmellaceae, Chlorophyta), a deep-water, palmelloid alga with ferritin and trilaminar sheaths 492–499

António José Calado and Jacob Larsen. On the identity of the type species of the genus *Ceratium* Schrank (Dinophyceae), with notes on *C. hirundinella* 500–505

Ricardo Scrosati and Robert E. DeWreede. Dynamics of the biomass-density relationship and frond biomass inequality for *Mazzaella cornucopiae* (Gigartinaceae, Rhodophyta): implications for the understanding of frond interactions 506–516

In Memoriam 517–523

Book Review 524

Subject and Author Indexes 525–530

Published 25 November 1997
